

Let It Ride

GAMING GUIDE

How to play let it ride.

Let It Ride is played with a deck of 52 cards and is based upon the card rankings used in five card stud poker. Players are not playing against the Dealer or other Players at the table. Instead all Players are playing against a pay table. In addition to the standard Let It Ride wagers, the game also features two optional wagers, the 3-Card Bonus wager and a Progressive wager. The 3-Card Bonus wager wins if a Player has a pair or better in their first 3 cards. The Progressive wager wins if the Player has a 3 of a Kind or better in their 5-card hand.

At the start of the round, the players must make three equal wagers and place them in the areas indicated "1," "2" and "\$." At this time, the players also have the option to make a 3-Card Bonus wager and a Progressive wager.

Each Player and the Dealer will be dealt three cards. Players will ultimately combine their three cards with the two community cards to create a 5-card poker hand. After viewing their first 3 cards, each Player will be asked by the dealer whether they wish to withdraw bet number "1" or Let It Ride. Once each Player has made a decision regarding bet number "1", the Dealer will burn one of their three cards and turn over the first community card. At this time, the Players must decide whether they wish to withdraw bet number "2" or Let It Ride. Once each player has made a decision on bet number "2," the Dealer will reveal the second and final community card. After the second community card is turned face up, the Dealer will turn the three cards of each Player face up beginning with the Player farthest to the Dealer's right. The Dealer will determine using the two community card and the Player's three cards if the Player has a 5-card poker hand ranking equal to a pair of tens or better. The Player needs a 5-card poker hand that ranks equal to a pair of tens or better to win, if not the Player loses. Regardless of the decisions made concerning the first or second bets, the Player may not take back the third bet (\$).

Winning Hands will be paid based on the following pay table:

Royal Flush	1000 to 1
Straight Flush	200 to 1
4 of a Kind	50 to 1
Full House	11 to 1
Flush	8 to 1
